### **DETAILED ACTION**

The following is a response to the amendment received on December 8, 2007 which has been entered.

#### ***Drawings***

The drawings were received on December 8, 2007. These drawings are approved.

#### ***Response to Amendment***

Claims 1-9 are pending in the application.

-The objection to the abstract has been withdrawn due to applicant amending the abstract to under 150 words.

-The objection to claims 7-9 has been withdrawn due to applicant deleting the reference characters from claims 8 and 9 that are not in parentheses and correcting a grammar error in claim 7.

-The 112 2<sup>nd</sup> rejection of claims 1-9 has been withdrawn due to applicant correcting antecedent basis of limitations in claims 1, 4, 5, 7 and 8.

#### ***Allowable Subject Matter***

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-(as to claim 1) a system for starting a car in safety using a control unit that doesn't start the engine if a foot brake is not operative and a gear shift lever is not in

neutral position, locking the lever until the engine speed is lowered less than a reference value after the engine is started, locking the lever to a neutral position if the engine speed is more than a reference value upon starting and turning off a vacuum apparatus when the engine rotates and in combination with each and every remaining limitation of claim 1.

-(as to claim 7) a method for starting a car in safety by turning on an ACC switch, turning a hydro-vac providing brake oil to a foot brake, turning on an engine switch, starting the engine if a gear shift lever is in neutral and the foot brake is operative, determining if an engine speed is less than a predetermined value and disabling a gear shifting if the engine speed is lowered to a reference value and turning into a restartable state without operating the foot brake even if the engine is turned on and in combination with the remaining limitations of claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
